Roller Shades & Skyline[®] Panels

BEFORE

AFTER

The style behind the shades.

The Roller Duolite® Shade is a unique proprietary system that combines a sheer or semi-sheer fabric with a room-darkening liner in a single shade for the ultimate in light control and privacy.

The exclusive fabric collection is modern, design driven and fashion forward.

Color is the foundation of a room. Our on trend yet timeless hues cover the color spectrum.

Express your style.
Distinctive patterns
create visual interest
in any room.

Fabric Abilene Color Lottie Gray Operating System Custom Clutch Deck 2

Sumptuous textures help define a space by adding depth and dimension.

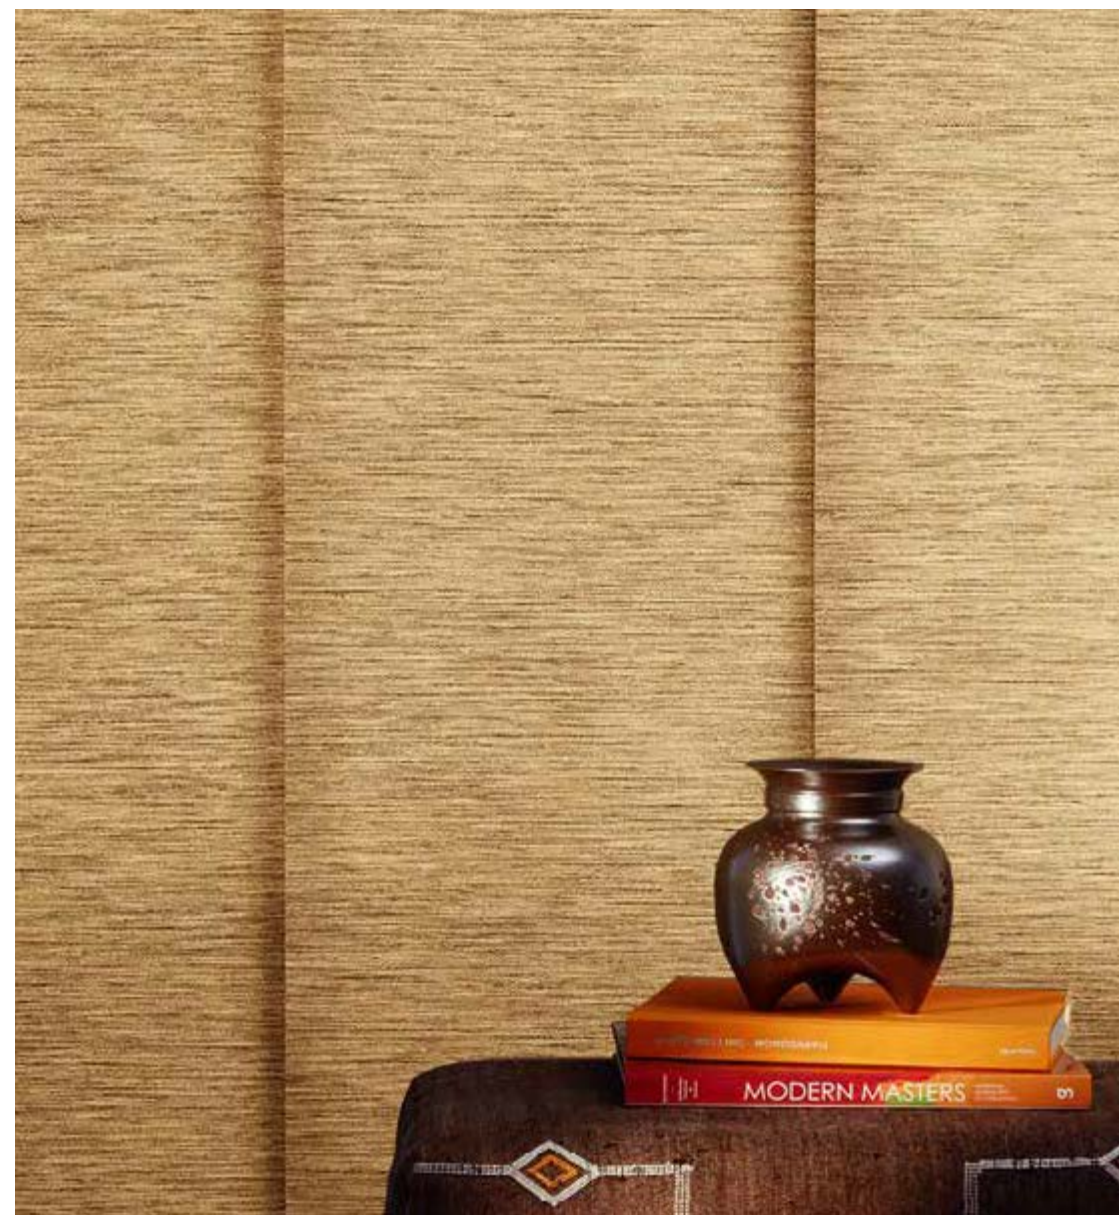

Define your space. Skyline® Panels are a perfect fit for today's trend of loft-style living.

The Dual Roller Shade combines two decorative fabric styles in different opacities.

Control the view on your schedule with PowerView® Automation.

Attention to detail.
Cordless operating
system options
provide enhanced
child safety.

The Blockout System minimizes light in any room where room-darkening is needed.

The Perfect Combination

Roller Shades and Skyline® Panels provide the ultimate in coordination for both windows and doors in the same room or throughout your home.

Roller Duolite® Shade

This unique and proprietary system combines a sheer or semi-sheer fabric with a room-darkening liner in a single shade. Allowing you to control the light and create privacy, beautifully.

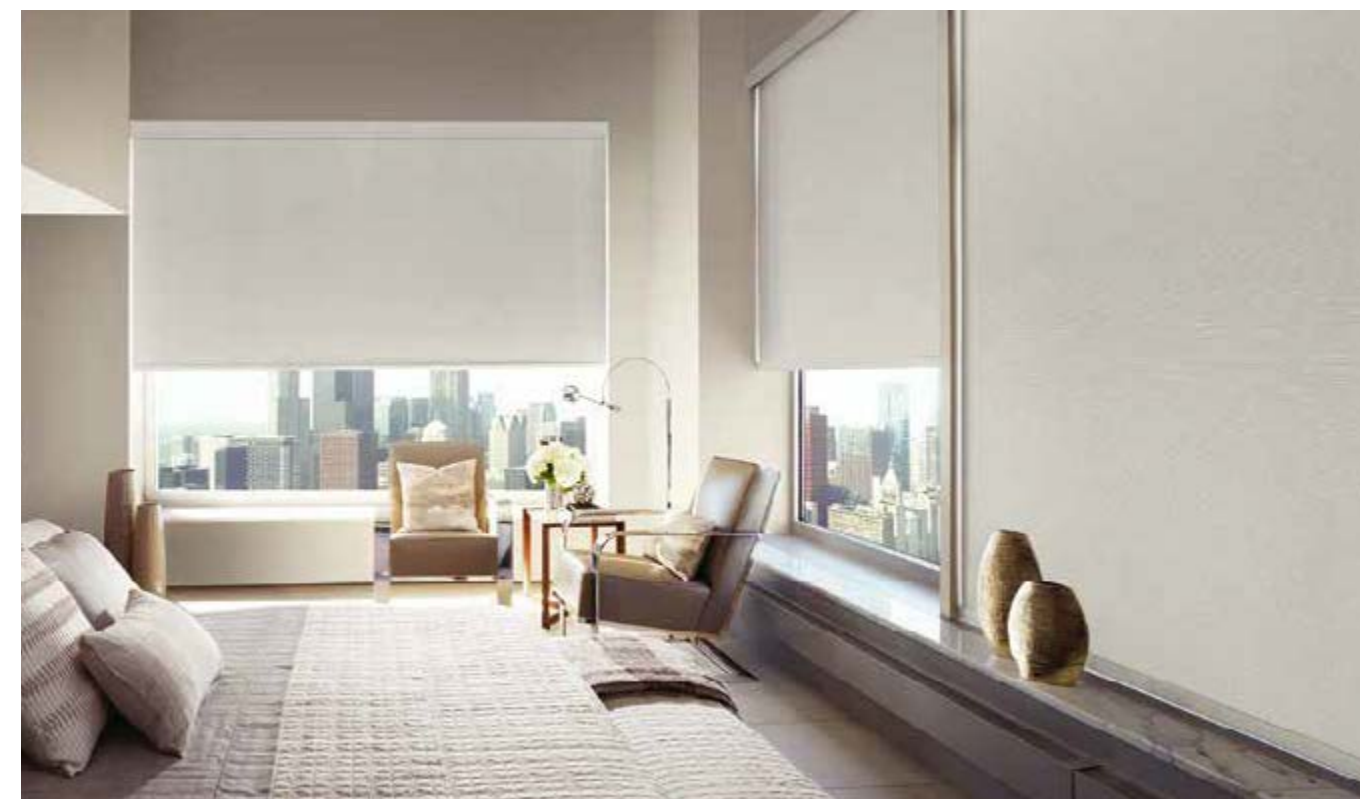

Product Versatility

Almost every fabric in the collection is available as Roller Shades and Skyline® Panels providing a Whole House Solution™ for covering both vertical and horizontal window applications in the same room.

Unmatched Fabrics

Sourced globally providing the most complete, comprehensive and extensive collection of woven fabrics on the market. Sumptuous textures and distinctive patterns in hues that cover the color spectrum define our collection.

Superior Functionality

PowerView® Automation provides the ultimate in-home automation allowing you to control every shade with the touch of a button.

Designer Roller Shades Product Advantages

Product Attribute	Features	Consumer Benefit
Automation	PowerView® Automation features both wireless technology and hard-wired solutions for whole home automation.	Multiple power source options available to fit each unique application and allow for smart home communication.
Proprietary Operating Systems	Custom Clutch	Provides shade-to-shade lift uniformity and a minimal light gap that is even on both sides.
	LiteRise®	Cordless system offers enhanced safety and stops at any point.
	UltraGlide®	Single retractable cord option for ease of operation and enhanced safety.
	SoftTouch™ Motorization	Wand controlled motorized operation for simple control.
Fabric Collection	Comprehensive Fabric Collection	Largest, most unique and robust collection of fabric on the market. Featuring neutrals, colors, textures and patterns.
Blockout System	Incorporates side and sill channels to eliminate light gaps for room darkening.	Provides maximum room darkening, especially when used with fabrics that offer the most light control, 28 opaque fabric styles.
Roller Duolite® Shade	Combines a sheer or semi-sheer decorative fabric with a room-darkening liner in a single shade.	The room-darkening liner can be positioned as needed providing privacy and additional light control to a sheer or semi-sheer fabric.
Dual Roller	2 Shades in 1 Window, independently operated	Control the light and view by combining fabrics with different opacities and adjusting each shade individually.
Top Treatments	Square Cassette, Fascia, Pocket, Dust Cover Valance & Fabric Valance	Customize the look of your shade by selecting from various top treatments. With the fabric valance, create a coordinating or contrasting look by selecting fabric from Designer Roller or Screen collections.
Bottom Treatments	Round Bottom Bar, Flat Bottom Bar	Choose fabric-wrapped or unwrapped in one of 9 Custom Hardware Colors.
Design Options	Custom Hardware Colors	Color is preselected to best coordinate with fabric.
	Magnetic Hold-Down Brackets	Maintain the shade's position when fully closed.
Whole House Solution™	Majority of fabrics available in both Roller Shades and Skyline® Panels.	Utilize the same fabric in both Roller Shades & Skyline® Panels for window and door applications in the same room.

Skyline® Panels Product Advantages

Product Attribute	Features	Consumer Benefit
Headrail	 Patented 2 channel track system allows an infinite number of panels to attach to the slim 2 ½" headrail.	 Track size and number of channels does not increase like competitive programs where the track and channels grow based on window width.
	Sleek European styling profile.	Sleek profile provides perfect fit for every window.
Bottom Weight	Patented interlocking system.	Prevents panels from tangling while being traversed and adds panel stability.
Fabric Hanging System	Innovative fabric hanger features flexible flat rod.	Locks fabric securely in place while providing a tailored look.
Fabric Collection	Comprehensive fabric collection.	Largest, most unique and robust collection of fabric on the market.
Panel Widths	11 ½" and 17"	Provides uniformity.
Panel Stack Back	Minimal stack back.	Provides maximum view-through.
Automation	PowerView® Automation features wireless technology for home automation	Operate shades with a touch of a button or from any mobile device.
Design Options	Custom Hardware Colors.	9 hardware colors to coordinate with all fabrics.
Whole House Solution™	Majority of fabrics available in both Skyline® Panels and Roller Shades.	Utilize the same fabric in both Roller Shades & Skyline® Panels for window and door applications in the same room.

The fabrics in this collection offer varying levels of privacy and light control. The fabric decks are organized by opacity from sheer to opaque. Fabric opacity will vary slightly within each category.

Design Studio™

Pair a Roller Shade with a side panel for a dynamic style statement and create a finished room. Design Studio™ features a highly-edited and curated fabric collection designed exclusively for Hunter Douglas. This unique yet focused collection brings a signature look to custom Side Panels, Drapery and accessories. Find your fashion here.

Majority of fabrics in the collection are available as Roller Shades and Skyline® Panels providing a Whole House Solution™ for covering all windows and doors.

Designer Roller Shades

Minimal yet sophisticated, Roller Shades roll up providing a seamless look at the window.

Roller Duolite® Shade One Shade Solution

The Roller Duolite® Shade combines a sheer or semi-sheer fabric with a room-darkening liner in a single shade for the best of both worlds to control light and create privacy.

Photo identification on page 5

Once the front sheer or semi-sheer fabric is completely lowered, the back liner can be adjusted as needed.

Roller Fabric Fully Lowered
Back Liner Not Lowered

Roller Fabric Fully Lowered
Back Liner Partially Lowered

Roller Fabric Fully Lowered
Back Liner Fully Lowered

The Roller Duolite® Shade combines beauty and functionality. The liner is designed to complement and enhance the color saturation of the decorative sheer or semi-sheer fabric. The liner color is preselected to best coordinate with each fabric and features a neutral street side.

- Single mounting profile works in many mounting situations
- Offered in PowerView® Automation only
- Large Square Cassette only
- Available fabrics are clearly marked in Decks 1 & 5
- Liner colors are preselected to best coordinate with each fabric

Dual Roller Two Shades, One Window

Combine roller fabrics with different opacities. Each shade operates independently for the ultimate in light control and privacy.

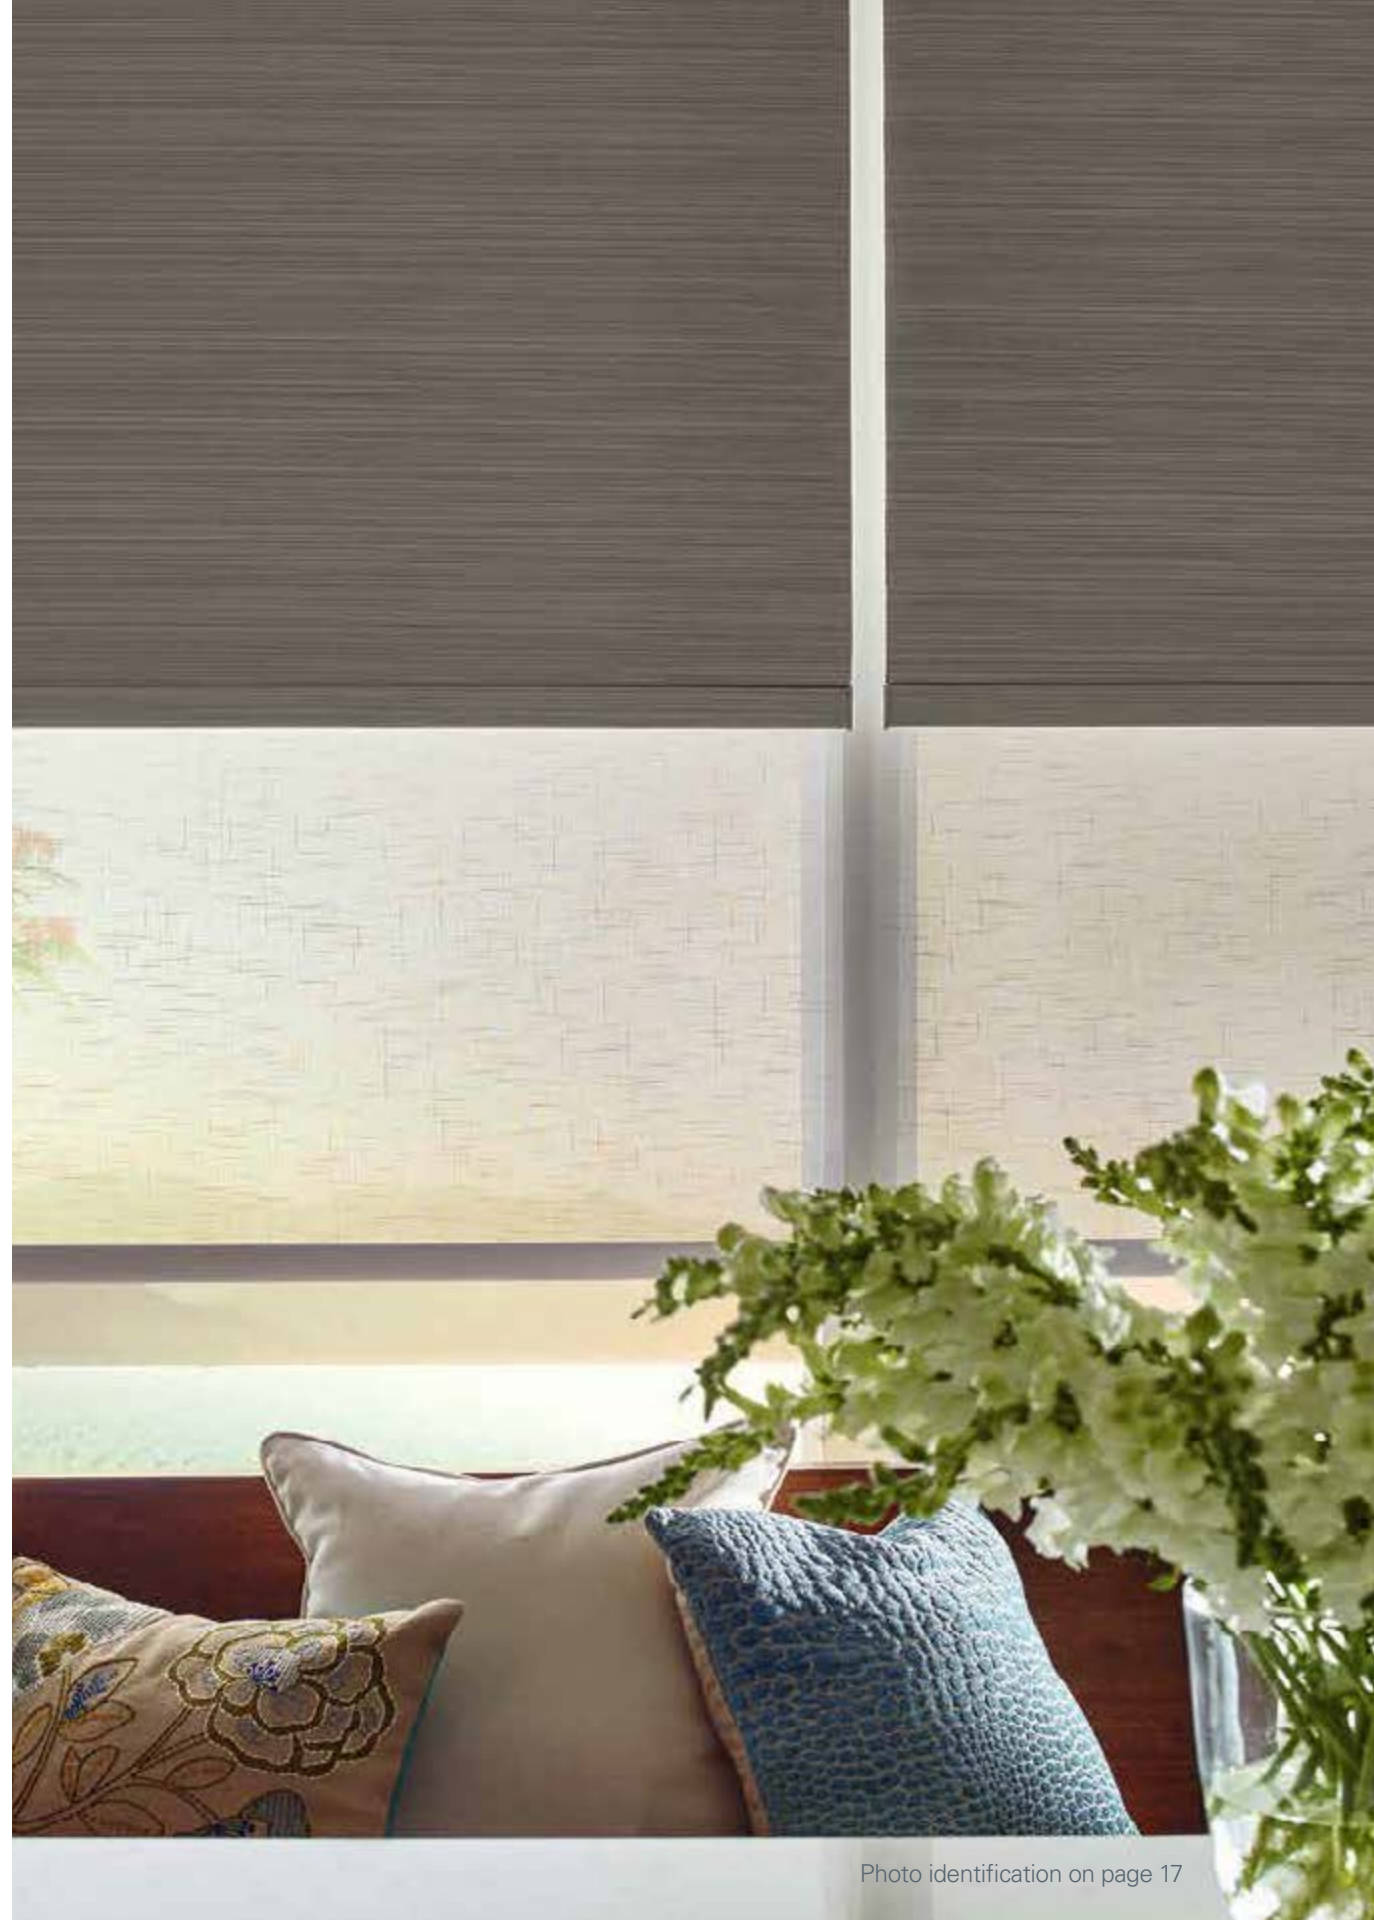

Photo identification on page 17

Front Shade Fabric Lowered

Front Shade Fabric Partially Raised

Front Shade Fabric Fully Raised

Dual Roller Cassette

- Combine any two fabrics as individual shades in a single cassette
- Shades operate independently
- Available with clutch operation only
- Single Large Square Cassette headrail

Dual Roller

- Combine any two fabrics as individual shades on a single bracket
- Fabric Valance suggested to cover mounting bracket and provide a finished look. Ordered separately from the Dual Roller Shade.
- Shades operate independently
- Available with Custom Clutch and PowerView® Automation
- Single mounting bracket accommodates both shades

Back Shade Fabric Sheer Linen Color Stardust **Operating System** Custom Clutch Dual Roller **Deck** 1

Blockout System

The Blockout System for Roller Shades minimizes light gaps making it the perfect solution for bedrooms, media rooms, home offices or wherever room-darkening is desired. Available in 9 Custom Hardware colors and Anodized.

Photo identification on page 23

Window Without Blockout System

Shade

Light Gap

Without side channels on an inside mount shade, there is a slight light gap around the shade fabric

Window With Blockout System

Shade

Shade slides inside the side channel when raised and lowered.

Side Channel

Aluminum side and sill channels are custom fitted with light-blocking wool pile to prevent light leakage around side and bottom sill channel.

Bottom Sill Channel

When lowered, the flat bottom bar fits into the sill channel.

*All opaque fabrics provide maximum room-darkening when using the Blockout System except for Amalfi, Esquire & Fenella which are not 100% room-darkening.

Top Treatments

Standard Roll Standard
Fabric rolls from the back, providing a minimal profile at the window. Roll direction can be specified on bracket only or with top treatment.

Reverse Roll Option
Fabric rolls from the front, providing a seamless flow of fabric. Roll direction can be specified on bracket only or with top treatment.

Fabric Valance Option
Fabric-wrapped valance in 6 1/2" or 8" height provides a clean profile at the window. Shown here with a matching fabric in an 8" Fabric Valance

Large Square Cassette Option
Conceals the fabric roll behind a modern square cover, available either fabric-wrapped or in one of 9 Custom Hardware colors. Also available with Skyline® for coordination.

Small Square Cassette Option
Conceals the fabric roll behind a modern square cover, available either fabric-wrapped or in one of 9 Custom Hardware colors.

Pocket Option
The fabric roll and operating system is completely enclosed and recessed into the ceiling. Color options White Tiara or Anodized.

Fascia Option
The exposed metal fascia covers the fabric roll providing a sleek look. Color options include 9 Custom Hardware colors and Anodized. Available in 3" and 4" sizes.

Dust Cover Option
Full dust cover protects shade from dust and dirt while blocking outside light from filtering into the room. Rounded corner only.

Pocket
Example of pocket mounted inside window frame.

Flat Bottom Bar Unwrapped Option

Skyline® Gliding Window Panels

With clean lines and a sleek urban look, Skyline® Panels provide a solution for both large and small window coverings.

Divide & Conquer

Skyline® Panels are the perfect solution for dividing and defining living spaces. As a room divider, let the fashion forward collection of colors, patterns and textures be a reflection of your style.

Photo identification on page 15

Separate large spaces, add a dramatic detail to a small area or simply create your own architectural element within a room.

The patented headrail ensures a sleek profile and the Box Valance provides a polished look that mounts easily to the ceiling. With a minimal stack back, the panels fit perfectly into any space, large or small.

- A Box Valance is available for use as a room divider for ceiling mount applications, and is available in one of 9 Custom Hardware Colors in 1 7/8" or 2 3/4" heights.
- The room divider kit (ceiling mount only) is available to facilitate the use of product as a room divider.
- Available in manual Cord Control or Wand Control and PowerView® Automation.
- Available up to 384" widths and 168" heights on Manual control and 192" x 168" heights for PowerView.
- Units ordered with a Sleek Metal Box Valance come with 3 1/2" returns.

Skyline® Difference Patented Hardware

Fabric Hanger

Designed for fabric stability while adding a tailored look. Unlike other systems, our fabric is wrapped over and attached to the hanger providing greater fabric stability. White only.

Bottom Weight

The innovative snap-on, snap-off system ensures stability and provides smooth operation. Available in 9 Custom Hardware colors.

Headrail

The dual-channel, single track design allows for an infinite number of panels to be installed on a single headrail. With other standard panel track systems, the number of tracks expand as the number of panels increase. Available in 9 Custom Hardware colors. Headrail image on opposite page.

Panel Width

11 1/2" Panel

Default Less Than 56" Wide

17" Panel

Default Greater Than 56" or Wider

Available exclusively in two panel widths, 11 1/2" and 17". Panel widths are established based on size of your window. Panel width can be selected so that all panels in various windows are the same.

Panel Stack

Left Stack

Split Stack

Right Stack

The minimal stack back provides maximum view-through. Stack back varies by shade size and panel width. With an outside mount, the panels can stack on the wall, providing an unobstructed view.

Light Orientation

Panel Orientation

Control The Direction Light Enters The Room.

Skyline® Panels hang diagonally on the headrail creating a slim profile and allowing light to gently filter into a room. Because the panels hang diagonally on the headrail, there is a slight light gap where the fabric panels overlap one another. A 7/8" inch space at the top of each panel tapers and narrows, reducing the light gap to almost zero at the midway point to the bottom where the panels are connected. To ensure maximum privacy, select either a left or right facing panel orientation for your installation.

LEFT

RIGHT

Bottom Light Direction

Panel Overlap

Minimum Panel Overlap

Maximum Panel Overlap

Based on the size of the window, the panel overlap can vary. The overlap will be more visible on sheer fabrics. Panel overlap cannot be specified.

Top Treatments

Headrail Standard
Slim 2 1/2" Headrail allows for an infinite amount of panels. Available in one of 9 Custom Hardware Colors.

Large Square Cassette Option
Conceals the track behind a modern square cover. Available either fabric-wrapped or in one of 9 Custom Hardware Colors. Also available with Roller Shades for fabric coordination..

Sleek Metal Valance Option
Covers the headrail and the light gap between the panels and headrail. Available in one of 9 Custom Hardware Colors and 1 7/8" or 2 3/4" heights.

Box Valance Option
Perfect when used as a room divider or ceiling mount application. Available in one of 9 Custom Hardware Colors and 1 7/8" or 2 3/4" heights.

Fabric Valance Option
Fabric-wrapped valance in 6 1/2" or 8" height provides a clean profile at the window. Select any fabric for a coordinating or contrasting valance. Shown 8" Fabric Valance
Fabric Valances are ordered separately from the shade. Also available with Roller Shades for fabric coordination.
